## PROFILE

Recent diploma graduate looking for a junior developer position. I enjoy programming and want to learn from experienced developers.

## EDUCATION

Diploma in Information Technology, 2025. Modules: Java programming, databases, web development, systems analysis, software engineering.

## COURSEWORK PROJECTS

- Library management system in Java (group assignment, 3 students). Used classes, inheritance and a MySQL database.
- Student portal web page with HTML, CSS and a little JavaScript.
- Database design assignment: designed tables for a clinic and wrote SELECT and JOIN queries.

## EXPERIENCE

**Waiter, Corner Bistro** 2023 to 2025 (part time)

- Served customers in a busy restaurant, handled cash and worked as part of a team.

## SKILLS

Java, basic Python, MySQL, HTML, CSS, some JavaScript, Microsoft Office. I have used Git for group assignments.
