PROFILE

Data analyst with strong SQL skills who wants to move into software development.

EXPERIENCE

Data Analyst, Meridian Retail 2023 to present

- Write SQL (PostgreSQL) queries and views for weekly sales and stock reports, around 40 queries a month.
- Rebuilt a slow stock report by adding indexes and rewriting a join. Run time went from 14 minutes to 90 seconds.
- Use Python and pandas for clean-up scripts. Scripts are run by hand and kept in a shared folder (no version control).
- Explain results to store managers in short presentations.

PROJECTS

- Sales dashboard in Power BI for the finance team. No web development or API work yet.

SKILLS

SQL (advanced), Python (pandas, basic scripting), Power BI, Excel. Little experience with Git, testing or web frameworks.

EDUCATION

BCom Informatics, 2022.
